This list should only be used as a guide. Insurer policies are subject to change without notice and patients may be responsible for non-covered services, deductibles and co-insurance amounts.

As a courtesy to patients, Clinical Laboratory Partners will submit insurance claims to other third party (non-contracted) administered plans. Patients continue to be responsible for payment and should fully understand which providers participate in their insurance plans. Patients in doubt should contact their plan. We will submit to the above insurances, but are not limited to these companies nor accept contractual limitations applied by those plans.

\*\* Participating through First Health or PHCS Networks

Clinical Laboratory Partners LLC
